6. Consent of Independent Registered Public Accounting Firm	<a href="#">Exhibit I</a>

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Administrative Committee of the Chemed/Roto-Rooter Savings and Retirement Plan has caused this annual report to be signed by the undersigned hereunto duly authorized.

Dated: June 28, 2023

CHEMED/ROTO-ROOTER SAVINGS & RETIREMENT PLAN

By: /s/ Jeff Finke  
Jeff Finke

Administrative Committee

To the Investment Committee, Plan Administrator and Plan Participants  
Chemed/Roto-Rooter Savings and Retirement Plan

***Opinion on the Financial Statements***

We have audited the accompanying statements of net assets available for benefits of the Chemed/Roto Rooter Savings and Retirement Plan (the “Plan”) as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets of the Plan as of December 31, 2022 and 2021, and the changes in its net assets for the year ended December 31, 2022, in conformity with accounting principles generally accepted in the United States of America.

***Basis of Opinion***

The Plan’s management is responsible for these financial statements. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

***Supplemental Information***

The supplemental information in the accompanying schedule of assets held at end of year as of December 31, 2022 has been subjected to audit procedures performed in conjunction with the audit of the Plan’s financial statements. The supplemental information is the responsibility of the Plan’s management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Department of Labor’s Rules and Regulations for Reporting under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Plante & Moran, PLLC

We have served as the Plan’s auditor since 2017.

1. **General Description of the Plan**

**Overview and Eligibility**

Chemed Corporation, as the Plan Administrator, adopted the Chemed/Roto-Rooter Savings & Retirement Plan (the "Plan"). The Plan is a defined contribution plan available to all full-time employees of participating units of Chemed Corporation (the "Company"), except those covered by collective bargaining agreements, who have completed at least 500 hours of service in any six months of continuous service. The following summary provides an overview of major Plan provisions and is provided for general informational purposes. Participants should refer to the Plan document for more complete information and a full description of the Plan provisions and qualifications. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

**Contributions**

Employee contributions may be made from before-tax earnings, which has the effect of reducing current taxable earnings for federal income tax purposes, and/or after tax earnings. In any Plan year, an employee may contribute up to a maximum of 85% of his or her included compensation, as defined, or the maximum allowed by the Internal Revenue Code, as amended ("IRC"), whichever is less ("Basic Contribution"). For the Plan year 2022, the IRC limit on before-tax contributions was \$20,500. In addition, eligible employees who have attained age 50 prior to the close of the Plan year are eligible to make a catch-up contribution of \$6,500. Employee contributions are made through payroll deductions. The Company, on a participating unit basis, may elect to make contributions ("Qualified Matching Contribution") to the Plan on the first 6% of employees' basic contribution. The Company may also elect to make discretionary contributions ("Qualified Nonelective Contribution"). The Company made discretionary contributions of \$6,970,948 and \$7,776,222 for the years ended December 31, 2022 and 2021, respectively.

The Plan limits covered compensation for purposes of determining Basic and Matching Contributions to \$305,000 for the Plan year ended December 31, 2022. All contributions are subject to limitations imposed by the IRC and ERISA.

**Participant Accounts**

Individual participant accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company match if applicable, an allocation of Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The Plan benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

**Vesting and Forfeitures**

Participants are immediately vested in their Basic Contributions and any earnings or losses thereon. Vesting in the employer's Matching Contributions occurs in annual 20% increments after two years of service and participants are fully vested after six years of service. Additionally, all participants of the Plan are fully vested in employer contributions upon normal retirement, death or total permanent disability incurred while employed. Participants who forfeit amounts under the Plan are permitted to restore the amount of such forfeiture by paying the Plan, subject to certain limitations, the entire withdrawn amount which gave rise to the forfeiture. Forfeitures are not permitted to be restored to the participants' accounts after the occurrence of five consecutive one year breaks-in-service. Company may elect to use forfeitures to pay Plan administrative expenses or to reduce Qualified Nonelective Contributions and Qualified Matching Contributions.

At December 31, 2022 and 2021, the forfeited account totaled \$1,227,391 and \$1,285,133, respectively, which was used to reduce the year end employer contributions receivable.

**Notes to Financial Statements**

---

**Investment Options**

Investment of employee contributions is made in accordance with employee elections and stipulated Plan provisions. Beginning January 1, 1999, the Plan appointed Merrill Lynch, who was subsequently acquired by Bank of America, N.A., as Trustee and currently offers participants the ability to invest contribution amounts in various mutual fund options, a stable value collective trust fund and Chemed Corporation stock. Purchases of Chemed Corporation stock are made by the Plan's trustee on the open market. Investment in Chemed Corporation stock is limited to 20% of a participant's total account balance. Employer contributions are invested in the same manner and allocation as the employee contributions. The Plan allows participants to transfer funds among the various investment options.

**Notes Receivable from Participants**

Participants may borrow from their vested account balance a minimum of \$500 up to a maximum of 50% of the vested account balance with a maximum limit of \$50,000. Loan terms range from 1 to 5 years or up to 10 years if the proceeds of the loan are used for the purchase of the participant's primary residence. Loans are secured by the balance in the Participant's account and bear interest at the prime rate plus 1%. Participants may not have more than two loans outstanding at any one time. Principal and interest payments are payable ratably through direct payroll deductions. Loans are in default when any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed a scheduled payment. Also, a loan is in default if the participant or a representative makes a false statement to the Plan.

**Payment of Benefits**

Upon termination of service with the Company, participants are entitled to a lump sum distribution of the vested portion of their account balance. Upon retirement or if a participant becomes totally and permanently disabled or dies, the participant or their beneficiary is entitled to their entire account balance. Retired and terminated Participants who have an account balance in excess of \$5,000 may elect various forms of deferred distribution.

**Withdrawals**

The Plan allows withdrawals of after-tax, rollover and vested employer matching contributions while an active employee. The Plan also allows for a "financial hardship" withdrawal of before-tax contributions for participants under age 59 ½ years in cases of demonstrated "financial hardship", as defined by the Plan document.

**Plan Termination**

The Company anticipates that the Plan will continue without interruption but reserves the right to discontinue the Plan subject to the provisions of ERISA and the IRC. In the event that the Plan is terminated, the participants shall be fully vested in the current market value of amounts credited to their accounts at the date of termination.

**Notes to Financial Statements**

---

2. **Summary of Significant Accounting Policies**

**Investment valuation**

Investments of the Plan are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5.

**Notes receivable from participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

**Investment income**

Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis.

**Payment of benefits**

Benefits are recorded when paid.

**Expenses of the Plan**

All expenses incurred in the administration of the Plan are paid by the Plan except for audit and legal expenses which are paid by the Company.

**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U. S. GAAP").

**Use of estimates**

The preparation of financial statements in conformity with U. S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

**Concentrations, risks and uncertainties**

The Plan has a significant concentration of investment in Chemed Corporation stock. A change in the value of this stock could cause the value of the Plan's net assets to change significantly due to this concentration.

The Plan provides for various investment options in a number of funds which include stocks, bonds, fixed income securities, mutual funds and other investment securities. Certain investments are exposed to risks such as changes in interest rates, fluctuations in market conditions and credit risk. The level of risk associated with certain investment securities and uncertainty related to changes in value of these securities could materially affect participant account balances and amounts reported in the financial statements and accompanying notes.

**Notes to Financial Statements**

---

**3. Tax Status**

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 3, 2018, that the Plan and related Trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC. The related Trust is exempt from federal income tax under section 501(a) of the IRC.

The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

**4. Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2022 and 2021 to Form 5500.

	<b>December 31,</b>	
	<b>2022</b>	<b>2021</b>
Net assets available for benefits per the financial statements	\$ 308,003,232	\$ 374,910,454
Amounts allocated to withdrawing participants	<u>(12,587)</u>	<u>(1,103,699)</u>
Net assets available for benefits per the Form 5500	<u>\$ 307,990,645</u>	<u>\$ 373,806,755</u>

**Notes to Financial Statements**

---

The following is a reconciliation of changes in net assets per the financial statements at December 31, 2022 to Form 5500.

	<u>December 31,</u> <u>2022</u>
Decrease in net assets per the financial statements	\$ (66,907,222)
Less: Change in amounts allocated to withdrawing participants	<u>1,091,112</u>
Net loss per Form 5500	<u>(65,816,110)</u>

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been requested prior to December 31, but are not yet paid as of year-end.

**5. Fair Value Measurements**

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based on a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds – Valued using prices quoted on active markets at the measurement date.

Common stock – Valued at the closing price reported on the New York Stock Exchange on which the security is traded.

Notes to Financial Statements

Collective trust fund – Valued at the net asset value (“NAV”) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value:

		December 31, 2022		
	Investments (at fair value)	Level 1	Level 2	Level 3
Common stock	\$ 29,273,407	\$ 29,273,407	\$ -	\$ -
Mutual funds	248,433,188	248,433,188	-	-
Total		\$ 277,706,595	\$ -	\$ -

Investments measured at NAV:

Collective trust fund	16,756,857
Total investments at fair value	\$ 294,463,452

		December 31, 2021		
	Investments (at fair value)	Level 1	Level 2	Level 3
Common stock	\$ 34,650,199	\$ 34,650,199	\$ -	\$ -
Mutual funds	305,038,439	305,038,439	-	-
Total		\$ 339,688,638	\$ -	\$ -

Investments measured at NAV:

Collective trust fund	19,359,149
Total investments at fair value	\$ 359,047,787

Investments in the collective trust have no holding period, and redemptions can be made daily. There are no unfunded commitments.

**Notes to Financial Statements**

---

**6. Party-In-Interest Transactions**

Certain Plan investments held during the years ended December 31, 2022 and 2021 include shares of the Company's common stock. During 2022, approximately 1,700 shares of Chemed Corporation common stock was purchased in the amount of approximately \$800,000 and approximately 9,800 shares of Chemed Corporation common stock was sold in the amount of approximately \$4,800,000, which qualify as party-in-interest transactions.
