CHEMED CORPORATION AND SUBSIDIARY COMPANIES

Basis of Presentation

As used herein, the terms "We," "Company" and "Chemed" refer to Chemed Corporation or Chemed Corporation and its consolidated subsidiaries.

We have prepared the accompanying unaudited consolidated financial statements of Chemed in accordance with Rule 10-01 of SEC Regulation S-X. Consequently, we have omitted certain disclosures required under generally accepted accounting principles in the United States ("GAAP") for complete financial statements. The December 31, 2008 balance sheet data were derived from audited financial statements but do not include all disclosures required by GAAP. However, in our opinion, the financial statements presented herein contain all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our financial position, results of operations and cash flows. These financial statements are prepared on the same basis as and should be read in conjunction with the Consolidated Financial Statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2008. Certain 2008 amounts have been restated to conform with current period presentation related to adoption of new accounting guidance for our convertible debt, as described in Note 5.

In June 2009, the FASB established the Accounting Standards Codification, "Codification", which established the Codification as the single source of authoritative nongovernmental U.S. GAAP. The Codification was effective for interim or annual financial periods ending after September 15, 2009. We have adopted the Codification and all references in our financial statements to authoritative U.S. GAAP have been changed.

Revenue Recognition

Both the VITAS segment and the Roto-Rooter segment recognize service revenues and sales when the earnings process has been completed. Generally, this occurs when services are provided or products are Medicare nauments are subject to certain limitations, as described below. delivered. VITAS recognizes revenue at the estimated realizable amount due from third-party payers. Medicare payments are subject to certain limitations, as described below

As of September 30, 2009, VITAS has approximately \$12.1 million in unbilled revenue (December 31, 2008 - \$13.9 million). The unbilled revenue at VITAS relates to hospice programs currently undergoing focused medical reviews ("FMR"). During FMR, surveyors working on behalf of the U.S. Federal government review certain patient files for compliance with Medicare regulations. During the time the patient file is under review, we are unable to bill for care provided to those patients. We make appropriate provisions to reduce our accounts receivable balance for potential denials of patient service revenue due to FMR activity.

The U.S. government revises hospice reimbursement rates on an annual basis using the Hospice Wage Index (HWI) and the Budget Neutrality Adjustment Factor (BNAF). The HWI is used to adjust reimbursement rates to reflect local differences in wages. The BNAF is an estimated inflation factor applied to the HWI. In August 2008, the U.S. government announced a 25% reduction in the BNAF for its fiscal 2009 (October 2008 through September 2009) pursuant to a three year phase-out of the BNAF. The February 2009 American Recovery and Reinvestment Act mandated a one year delay in the BNAF phase-out. As a result, included in the nine months ended September 30, 2009 results, is \$1.55 million of revenue for the retroactive price increase related to services provided by VITAS in the fourth quarter of 2008. Revenue for service provided in fiscal 2009 includes a reimbursement rate with the full BNAF increase.

We actively monitor each of our hospice programs, by provider number, as to their specific admission, discharge rate and median length of stay data in an attempt to determine whether they are likely to exceed the annual per-beneficiary Medicare cap ("Medicare cap"). Should we determine that revenues for a program are likely to exceed the Medicare cap based on projected trends, we attempt to institute corrective action to influence the patient mix or to increase patient admissions. However, should we project our corrective action will not prevent that program from exceeding its Medicare cap, we estimate the amount of revenue recognized during the period that will require repayment to the Federal government under the Medicare cap and record the amount as a reduction to patient revenue. The Medicare cap measurement period is from September 29 through September 28 of the following year for admissions and from November 1 through October 31 of the following year for revenue. For the three-month period ended September 30, 2009, we recorded \$43,000 in Medicare cap liability related to a retroactive billing for 2006. During the nine-month period ended September 30, 2009, we reversed our estimated liability of \$235,000 due to improved admission trends. This relates to one programs's projected liability that was recorded during the fourth quarter of 2009. Finally, we paid \$302,000 for a retroactive billing related to our discontinued Phoenix operation during the third quarter of 2009. This amount was previously accrued and had no impact on our income statement. No revenue reduction for Medicare cap liability was recorded for the three or nine-month periods ended September 30, 2008.

4. Earnings per ShareEarnings per share are computed using the weighted average number of shares of capital stock outstanding. Earnings and diluted earnings per share for 2009 and 2008 are computed as follows (in thousands, except per share data):

For the Three Months Ended September 30,	Net	Income	Shares		Earnings oer Share
2009 Famings		10.210	22.461	¢	0.86
Earnings	\$	19,210	22,461	Э	0.80

Earnings	\$	16,951	22,503	\$	0.75
Dilutive stock options		-	287		
Nonvested stock awards		-	28		
Diluted earnings	\$	16,951	22,818	\$	0.74

For the Nine Months Ended September 30,	Net	Income	Shares	Earnings per Share	
2009 Earnings	\$	55,799	22,425 212	\$	2.49
Dilutive stock options Nonvested stock awards Diluted earnings	\$	55,799	42 22,679	\$	2.46
2008 Earnings	\$	49,082	23,285	\$	2.11
Dilutive stock options Nonvested stock awards Diluted earnings	\$	49,082	305 30 23,620	\$	2.08

For the three and nine-month periods ended September 30, 2009, 1,325,417 and 1,655,418, respectively, stock options were excluded from the computation of diluted earnings per share as their exercise prices were greater than the average market price for most of the period. For both the three and nine-month periods ended September 30, 2008, 829,000 stock options were excluded, respectively, from the computation of diluted earnings per share.

Diluted earnings per share may be impacted in future periods as the result of the issuance of our 1.875% Senior Convertible Notes (the "Notes") and related purchased call options and sold warrants. Per FASB's authoritative guidance on the effect of contingently convertible instruments on diluted earnings per share and convertible bonds with an issuer option to settle for cash upon conversion, we will not include any shares related to the Notes in our calculation of diluted earnings per share nutil our average stock price for a quarter exceeds the conversion price of \$80.73. We would then include in our diluted earnings per share calculation those shares issuable using the treasury stock method. The amount of shares issuable is based upon the amount by which the average stock price for the quarter exceeds the conversion price. The purchased call option does not impact the calculation of diluted earnings per share as it is always anti-dilutive. The sold warrants become dilutive when our average stock price for a quarter exceeds the strike price of the warrant.

The following table provides examples of how changes in our stock price impact the number of shares that would be included in our diluted earnings per share calculation. It also shows the impact on the number of shares issuable upon conversion of the Notes and settlement of the purchased call options and sold warrants:

Share Price	Shares Underlying 1.875% Convertible Notes	Warrant Shares	Total Treasury Method Incremental Shares (a)	Shares Due to the Company under Notes Hedges	Incremental Shares Issued/ (Received) by the Company upon Conversion (b)
\$ 80.73	-	-	-	-	-
\$ 90.73	255,243	-	255,243	(273,061)	(17,818)

\$ 130.73	885.726	479.274	1.365.000	(947,556)	417.444

(a) Represents the number of incremental shares that must be included in the calculation of fully diluted shares under U.S. GAAP.

⁽b) Represents the number of incremental shares to be issued by the Company upon conversion of the Notes, assuming concurrent settlement of the note hedges and warrants.

Long-Term Debt
We are in compliance with all debt covenants as of September 30, 2009. We have issued \$27.9 million in standby letters of credit as of September 30, 2009 for insurance purposes. Issued letters of credit reduce our available credit under the revolving credit agreement. As of September 30, 2009, we have approximately \$147.1 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility, excluding the expansion feature.

In May 2008, the FASB issued authoritative guidance for accounting for convertible debt instruments that may be settled in cash upon conversion including partial cash settlement. This guidance requires all convertible debentures classified as Instruments B or C to separately account for the debt and equity pieces of the instrument. Convertible debentures classified as Instruments B may be settled in either stock or cash equivalent to the conversion value and convertible debentures classified as Instruments C must settle the accreted value of the obligation in cash and may satisfy the excess conversion value in either cash or stock. At inception of the convertible instrument, cash flows related to the convertible instrument are to be discounted using a market rate of interest. We adopted the provisions of the guidance on January 1, 2009 and applied the guidance retrospectively. Upon adoption, the Notes had a discount of approximately \$54.9 million. Retained earnings as of January 1, 2008 decreased \$2.3 million as a result of the cumulative effect of adoption.

The following amounts are included in our consolidated balance sheet related to the Notes:

	September 30, 2009			December 31, 2008
Principal amount of convertible debentures	\$	186,956	\$	186,956
Unamortized debt discount		(36,525)		(41,446)
Carrying amount of convertible debentures	\$	150,431	\$	145,510
Additional paid in capital (net of tax)	\$	31,310	\$	31,310

The following amounts comprise interest expense included in our consolidated income statement (in thousands):

	Three Months Ended September 30,			Nine Months Ended September 30,				
		2009		2008		2009		2008
Cash interest expense	\$	1,014	\$	1,319	\$	3,438	\$	3,829

Amortization of debt costs		171		153		480		464
Total interest expense	\$	2,853	\$	3,140	\$	8,839	\$	9,213

The unamortized debt discount will be amortized using the effective interest method over the remaining life of the Notes. The effective rate on the Notes after adoption of the standard is approximately 6.875%. The gain on extinguishment of debt recognized in 2008 upon our repurchase of a portion of the Notes decreased by approximately \$802,000 upon adoption, due to a portion of the extinguishment being attributed to the equity component of our Notes.

Other Operating Expenses
For the nine-month period ended September 30, 2009 we recorded pretax expenses of \$4.0 million related to the costs of a contested proxy solicitation.

Stock-Based Compensation Plans
On February 19, 2009, the Compensation/Incentive Committee of the Board of Directors ("CIC") approved a grant of 53,199 shares of restricted stock to certain key employees. The restricted shares cliff vest four years from the date of issuance. The cumulative compensation expense related to the restricted stock award is \$2.3 million and will be recognized ratably over the four-year vesting period. We assumed no forfeitures in determining the cumulative compensation expense of the grant.

On February 19, 2009, the CIC approved a grant of 508,600 stock options to certain employees. The stock options vest ratably over three years from the date of issuance. The cumulative compensation expense related to the stock option grant is \$7.1 million and will be recognized over the three-year vesting period. We used the Black-Scholes option valuation method to determine the cumulative compensation expense of the grant.

On May 29, 2009, the Compensation/Incentive Committee ("CIC") approved a new stock-price target portion of the Company's Executive Long-Term Incentive Plan ("LTIP"), which covers our officers and key employees. The new stock price hurdles are as follows:

Stock Price Hurdle	Shares to be Issued
\$ 54.00	22,500
\$ 58.00	33,750
\$ 62.00	33,750

The stock price hurdles must be achieved during 30 trading days out of any 60 trading day period between May 29, 2009 and February 28, 2012.

Loans Receivable from Independent Contractors
The Roto-Rooter segment sublicenses with sixty-three independent contractors to operate certain plumbing repair and drain cleaning businesses in lesser-populated areas of the United States and Canada. We had notes receivable from our independent contractors as of September 30, 2009 totaling \$1.6 million (December 31, 2008 - \$1.6 million). In most cases these loans are fully or partially secured by equipment owned by the contractor. The interest rates on the loans range from zero to 8% per annum and the remaining terms of the loans range from months to 5 years at September 30, 2009. During the three months ended September 30, 2009, we recorded revenues of \$5.3 million (2008 - \$5.3 million) and pretax profits of \$2.4 million (2008 - \$2.5 million) from our independent contractors. During the nine months ended September 30, 2009, we recorded revenues of \$16.0 million (2008 - \$16.5 million) and pretax profits of \$7.1 million (2008 - \$7.6 million) from our independent contractors

We have adopted the provisions of the FASB's authoritative guidance on the consolidation of variable interest entities relative to our contractual relationships with the independent contractors. The guidance requires the primary beneficiary of a Variable Interest Entity ("VIE") to consolidate the accounts of the VIE. We have evaluated our relationships with our independent contractors based upon the guidance provided by the FASB and have concluded that some of the contractors who have loans payable to us may be VIE's. We believe consolidation, if required, of the accounts of any VIE's for which we might be the primary beneficiary would not materially impact our financial position, results of operations or cash flows.

11. Pension and Retirement Plans

All of the Company's pension and profit-sharing plans, excess benefit plans and other similar plans were \$4.3 million and \$838,000 for the three months ended September 30, 2009 and 2008, respectively. Expenses for the Company's pension and profit-sharing plans, excess benefit plans and other similar plans were \$11.3 million and \$6.3 million for the nine months ended September 30, 2009 and 2008, respectively.

Litigation

VITAS is party to a class action lawsuit filed in the Superior Court of California, Los Angeles County, in September 2006 by Bernadette Santos, Keith Knoche and Joyce White ("Santos"). This case alleges failure to pay overtime and failure to provide meal and rest periods to a purported class of California admissions nurses, chaplains and sales representatives. The case seeks payment of penalties, interest and Plaintiffs' attorney fees. VITAS contests these allegations. The lawsuit is in its early stages and we are unable to estimate our potential liability, if any, with respect to these allegations.

Regardless of outcome, defense of litigation adversely affects us through defense costs, diversion of our time and related publicity. In the normal course of business, we are a party to various claims and legal proceedings. We record a reserve for these matters when an adverse outcome is probable and the amount of the potential liability is reasonably estimable.

13. Regulatory Matters

Regulatory Matters
In April 2005, the Office of Inspector General ("OIG") for the Department of Health and Human Services served VITAS with civil subpoenas relating to VITAS' alleged failure to appropriately bill Medicare and Medicaid for hospice services. As part of this investigation, the OIG selected medical records for 320 past and current patients from VITAS' three largest programs for review. It also sought policies and procedures dating back to 1998 covering admissions, certifications, recertifications and discharges. During the third quarter of 2005 and again in May 2006, the OIG requested additional information from us. The Court dismissed a related qui tam complaint filed in U.S. District Court for the Southern District of Florida with prejudice in July 2007. The plaintiffs appealed this dismissal, which the Court of Appeals affirmed. The government continues to investigate the complaint's allegations. In March 2009, we received a letter from the government reiterating the basis of their investigation.

In May 2009, VITAS received an administrative subpoena from the U.S. Department of Justice requesting VITAS deliver to the OIG documents, patient records, and policy and procedure manuals for headquarters and its Texas programs concerning hospice services provided for the period January 1, 2003 to the date of the letter. In August 2009, the OIG selected medical records for 59 past and current patients from a Texas program for review. Based on the early stage of the investigation and the limited information we have at this time, we cannot predict the outcome of this investigation. We believe that we are in material compliance with Medicare and Medicaid rules and regulations applicable to hospice providers.

We are unable to predict the outcome of these matters or the impact, if any, that the investigation may have on our business, results of operations, liquidity or capital resources. Regardless of outcome, responding to the subpoenas can adversely affect us through defense costs, diversion of our time and related publicity.

Related Party Agreement

NOTAS has two pharmacy services agreements ("Agreements") with Omnicare, Inc. and its subsidiaries ("OCR") whereby OCR provides specified pharmacy services for VITAS and its hospice patients in geographical areas served by both VITAS and OCR. The Agreements renew automatically for one-year terms. Either party may cancel the Agreements at the end of any term by giving written notice at least 90 days prior to the end of said term. VITAS made purchases from OCR of \$8.5 million and \$8.3 million for the three months ended September 30, 2009 and 2008, respectively. VITAS made purchases of \$24.6 million and \$24.8 million for the nine months ended September 30, 2009 and 2008, respectively. VITAS made purchases of \$24.6 million and \$24.8 million for the nine months ended September 30, 2009 and 2008, respectively.

Mr. Joel F. Gemunder, President and Chief Executive Officer of OCR and Ms. Andrea Lindell are directors of both OCR and the Company. Mr. Kevin J. McNamara, President, Chief Executive Officer and a director of the Company, is a director emeritus of OCR. We believe that the terms of these agreements are no less favorable to VITAS than we could negotiate with an unrelated party.

Cash Overdrafts Payable

Included in accounts payable at September 30, 2009 is cash overdrafts payable of \$9.8 million (December 31, 2008 - - \$8.8 million).

Financial Instruments

On January 1, 2008, we partially adopted the provisions of the authoritative guidance on fair value measurements. This statement defines a hierarchy which prioritizes the inputs in fair value measurements. Level 1 measurements are measurements using quoted prices in active markets for identical assets or liabilities. Level 2 measurements use significant other observable inputs. Level 3 measurements using significant unobservable inputs which require a company to develop its own assumptions. In recording the fair value of assets and liabilities, companies must use the most reliable measurement available. There was no impact on our financial position or results of operations upon partial adoption of this authoritative guidance.

On January 1, 2009, the deferral period granted relative to the fair value measurement of our goodwill and indefinite lived intangible assets expired. There was no impact on our financial position or results of operations as a result of the expiration of the deferral.

Fair Value Measure

The following shows the carrying value, fair value and the hierarchy for our financial instruments as of September 30,2009 (in thousands):

Quoted Prices in Active Markets for Identical Assets Significant Other Observable Inputs Significant Unobservable Inputs Mutual fund investments of deferred compensation plans held in trust Long-term debt (Level 1) (Level 2) (Level 3) 22,441 150,501 22,441 153,916

For cash and cash equivalents, accounts receivable and accounts payable, the carrying amount is a reasonable estimate of fair value because of the liquidity and short-term nature of these instruments.

17. Subsequent Events

In May 2009, the FASB issued authoritative guidance on subsequent events which established general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. It requires the disclosure of the date through which subsequent events have been evaluated as well as the basis for that date. The guidance was effective prospectively for interim or annual financial periods ending after June 15, 2009. We have evaluated all subsequent events through October 30, 2009, the date of this filing, and determined there are no material recognized or unrecognized subsequent events.

18. Recent Accounting Statements

In June 2009, the FASB issued additional guidance related to the consolidation of variable interest entities, which makes significant changes to the model for determining who should consolidate an entity and also addresses how often this assessment should be performed. The determination of who should consolidate a variable interest entity will be based on both quantitative and qualitative factors relating to control, as well as risks and benefits of ownership. This guidance is effective in 2010 for calendar-year companies and is to be adopted through a cumulative-effect adjustment. We are currently evaluating the impact of adoption of these provisions on our existing accounting methods.

19. Guarantor Subsidiaries
Our 1.875% Notes are fully and unconditionally guaranteed on an unsecured, jointly and severally liable basis by certain of our 100% owned subsidiaries. The following unaudited, condensed, consolidating financial data presents the composition of the parent company (Chemed), the guarantor subsidiaries and the non-guarantor subsidiaries as of September 30, 2009 and December 31, 2008 for the balance sheet, the three and nine months ended September 30, 2009 and September 30, 2008 for the statement of cash flows (dollars in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

We operate through our two wholly owned subsidiaries, VITAS Healthcare Corporation and Roto-Rooter Group, Inc. VITAS focuses on hospice care that helps make terminally ill patients' final days as comfortable as possible. Through its team of doctors, nurses, home health aides, social workers, clergy and volunteers, VITAS provides direct medical services to patients, as well as spiritual and emotional counseling to both patients and their families. Roto-Rooter's services are focused on providing plumbing and drain cleaning services to over 90% of the U.S. population.

The following is a summary of the key operating results for the three and nine months ended September 30, 2009 and 2008 (in thousands except per share amounts):

	 September 30,				Nine Months Ended September 30,			
	 2009		2008		2009		2008	
Consolidated service revenues and sales	\$ 296,794	\$	288,312	\$	886,987	\$	856,736	
Consolidated net income	\$ 19,210	\$	16,951	\$	55,799	\$	49,082	
Diluted EPS	\$ 0.84	\$	0.74	\$	2.46	\$	2.08	

For the three months ended September 30, 2009 and 2008, the increase in consolidated service revenues and sales was driven by a 6% increase at VITAS while Roto-Rooter revenues decreased by 4%. The increase in service revenues at VITAS was a result of increased admissions of 3.1%, the October 1, 2008 Medicare reimbursement rate increase of approximately 3.5%, partially offset by a 1.2% increase in the number of discharged patients. The remaining difference is related to the timing within the quarter of admissions and discharges as well as a mix shift to higher acuity days of care. Roto-Rooter was driven by an 8% decrease in job count offset by an approximate 5% price and mix shift increase. The Roto-Rooter changes include the impact of acquisitions in 2008 and 2009, offset by the conversion of one company-owned branch to an independent contractor in 2009. The impact of these transactions is not material. Consolidated net income increased mainly as a result of the increase in revenues. Diluted EPS increased as the result of increased earnings.

For the nine months ended September 30, 2009 and 2008, the increase in consolidated service revenues and sales was driven by a 6% increase in service revenues at VITAS while Roto-Rooter revenues decreased approximately 2%. The increase in service revenues at VITAS was driven by a 0.5% increase in ADC, the October 1, 2008 Medicare reimbursement rate increase of approximately 3.5%, a reversal of Medicare cap billing limitations recorded in previous periods, an \$1.95 million increase related to the retroactive price increase for services in the fourth quarter of 2008 and a mix shift to higher acuity days of care. ADC was flat between periods. Roto-Rooter was driven by an 8% decrease in job count offset by an approximate 7% price and mix shift increases. The Roto-Rooter changes include the impact of acquisitions in 2008 and 2009, offset by the conversion of one company-owned branch to an independent contractor in 2009. Consolidated net income increased mainly as a result of the increase in revenues. Diluted EPS increased as the result of increased earnings and a reduction in the average shares outstanding due to our stock repurchase program.

VITAS expects to achieve full-year 2009 revenue growth, prior to Medicare cap, of 5.7% to 6.2%. Admissions are estimated to be in the range of 98% to 100% of total 2008 admissions. Medicare contractual billing limitations are estimated at \$1.25 million in the fourth quarter of 2009. Roto-Rooter expects full-year 2009 revenue to range from 98% to 101% of 2008 full year revenue. This expected revenue growth is a result of increased pricing of 5.0% and a favorable mix shift to higher revenue jobs, partially offset by a job count decline estimated at 7.0% to 8.0%. We anticipate that our operating income and cash flows will be sufficient to operate our businesses and meet any commitments for the foreseeable future.

Financial Condition
Liquidity and Capital Resources
Material changes in the balance sheet accounts from December 31, 2008 to September 30, 2009 include the following:

- A \$8.6 million increase in accounts receivable which results primarily from a \$10.3 million increase at VITAS resulting from Medicare related administrative delays in processing payments at certain of
- our programs offset by a decrease at Roto-Rooter related to a decrease in days sales outstanding.

 A \$17.9 million decrease in long-term debt which results primarily from an \$8.2 million net reduction in our revolving line of credit and a \$14.6 million payment on our term loan, offset by \$4.9 million amortization of bond discount.

Net cash provided by operating activities decreased \$9.0 million due primarily to the increase in accounts receivable, partially offset by the increase in net income and current tax liabilities.

We have issued \$27.9 million in standby letters of credit as of September 30, 2009, for insurance purposes. Issued letters of credit reduce our available credit under the revolving credit agreement. As of September 30, 2009, we have approximately \$147.1 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility, excluding the expansion feature. Management believes its liquidity and sources of capital are satisfactory for the Company's needs in the foreseeable future.

Commitments and Contingencies
Collectively, the terms of our credit agreements require us to meet various financial covenants, to be tested quarterly. In connection therewith, we are in compliance with all financial and other debt covenants as of September 30, 2009 and anticipate remaining in compliance throughout 2009.

VITAS is party to a class action lawsuit filed in the Superior Court of California, Los Angeles County, in September 2006 by Bernadette Santos, Keith Knoche and Joyce White ("Santos"). This case alleges failure to pay overtime and failure to provide meal and rest periods to a purported class of California admissions nurses, chaplains and sales representatives. The case seeks payment of penalties, interest and Plaintiffs' attorney fees. VITAS contests these allegations. The lawsuit is in its early stages and we are unable to estimate our potential liability, if any, with respect to these allegations.

Regardless of outcome, defense of litigation adversely affects us through defense costs, diversion of our time and related publicity. In the normal course of business, we are a party to various claims and legal proceedings. We record a reserve for these matters when an adverse outcome is probable and the amount of the potential liability is reasonably estimable.

In April 2005, the Office of Inspector General ("OIG") for the Department of Health and Human Services served VITAS with civil subpoenas relating to VITAS' alleged failure to appropriately bill Medicare and Medicaid for hospice services. As part of this investigation, the OIG selected medical records for 320 past and current patients from VITAS' three largest programs for review. It also sought policies and procedures dating back to 1998 covering admissions, certifications, recertifications and discharges. During the third quarter of 2005 and again in May 2006, the OIG requested additional information from us. The Court dismissed a related qui tam complaint filed in U.S. District Court for the Southern District of Florida with prejudice in July 2007. The plaintiffs appealed this dismissal, which the Court of Appeals affirmed. The government continues to investigate the complaint's allegations. In March 2009, we received a letter from the government reiterating the basis of their investigation.

In May 2009, VITAS received an administrative subpoena from the U.S. Department of Justice requesting VITAS deliver to the OIG documents, patient records, and policy and procedure manuals for headquarters and its Texas programs concerning hospice services provided for the period January 1, 2003 to the date of the letter. In August 2009, the OIG selected medical records for 59 past and current patients from a Texas program for review. Based on the early stage of the investigation and the limited information we have at this time, we cannot predict the outcome of this investigation. We believe that we are in material compliance with Medicare and Medicaid rules and regulations applicable to hospice providers.

We are unable to predict the outcome of these matters or the impact, if any, that the investigation may have on our business, results of operations, liquidity or capital resources. Regardless of outcome, responding to the subpoenas can adversely affect us through defense costs, diversion of our time and related publicity.

Results of Operations

Three months ended September 30, 2009 versus 2008 - Consolidated Results

Our service revenues and sales for the third quarter of 2009 increased 2.9% versus services and sales revenues for the third quarter of 2008. Of this increase, \$12.1 million was attributable to VITAS offset by a \$3.6 million decrease at Roto-Rooter. The following chart shows the components of those changes (dollar amounts in thousands):

	Increase/(Decrease)				
	A	mount	Percent		
VITAS					
Routine homecare	\$	7,347	4.9%		
Continuous care		4,905	15.8%		
General inpatient		(98)	-0.4%		
Medicare cap		(43)	-		
Roto-Rooter					
Plumbing		(721)	-2.0%		
Drain cleaning		(2,865)	-8.3%		
Other		(43)	-0.4%		
Total	\$	8,482	2.9%		

The increase in VITAS' revenues for the third quarter of 2009 versus the third quarter of 2008 was a result of increased admissions of 3.1%, the October 1, 2008 Medicare reimbursement rate increase of approximately 3.5%, partially offset by a 1.2% increase in the number of discharged patients. The remaining difference is related to the timing within the quarter of admissions and discharges as well as a mix shift to higher acuity days of care. In excess of 90% of VITAS' service revenues for the period were from Medicare and Medicaid.

The decrease in the plumbing revenues for the third quarter of 2009 versus 2008 is attributable to a 9.8% increase in the average price per job and a 9.4% decrease in the number of jobs performed. The average price per job for plumbing is attributable to an increase in the number of jobs requiring excavation work. Drain cleaning revenues for the third quarter of 2009 versus 2008 reflect a 7.9% decline in the number of jobs, while the average price per job increased 0.1%. The decrease in other revenues is attributable primarily to lower sales of drain cleaning products.

The consolidated gross margin was 29.6% in the third quarter of 2009 as compared with 29.8% in the third quarter of 2008. On a segment basis, VITAS' gross margin was 23.4% in the third quarter of 2009 and 23.6% in the third quarter of 2008. The Roto-Rooter segment's gross margin was 46.4% in the third quarter of 2009 and 45.1% in the third quarter of 2008. The increase in Roto-Rooter's gross margin was primarily the result of a \$646,000 decrease in health insurance expense over the prior year quarter, lower fuel costs due to lower gas prices and fewer technicians in training which improves the overall efficiency of our workforce.

Selling, general and administrative expenses ("SG&A") for the third quarter of 2009 were \$48.1 million, an increase of \$4.1 million (9.4%) versus the third quarter of 2008. The increase is primarily related to the impact of stock market gains which increase the liabilities of deferred compensation plans held in trust and an increase in stock-based compensation expense over the comparable prior-year period. Other income increased \$3.6 million in the third quarter of 2008 to \$1.7 million in the third quarter of 2009 due to the gain in the investments of deferred compensation plans held in trust which offsets the related expense in SG&A.

Our effective income tax rate decreased from 43.2% in the third quarter of 2008 to 39.3% in the third quarter of 2009. This decrease is due to the impact of non-deductible market losses on investments in our deferred compensation benefit trusts that occurred during the third quarter of 2008 but did not recur during the third quarter of 2009.

Our service revenues and sales for the first nine months of 2008. Of this increase, \$34.2 million was attributable to VITAS offset by a \$3.9 million decrease at Roto-Rooter. The following chart shows the components of those changes (dollar amounts in thousands):

The increase in VITAS' service revenues for the first nine months of 2009 versus the first nine months of 2008 is primarily the result of the 2008 Medicare reimbursement rate increase of approximately 3.5%, a \$1.95 million increase for the BNAF related to the fourth quarter of 2008, a net reversal of Medicare cap reserves of \$192,000, as well as favorable mix shift to higher acuity days of care and an ADC increase of 0.5% compared with the prior year period. The increase in ADC is a result of a 0.4% increase in routine homecare, an increase of 8.4% in continuous care and a 5.4% decrease in general inpatient. In excess of 90% of VITAS' service revenues for the period were from Medicare and Medicaid.

The increase in the plumbing revenues for the first nine months of 2009 versus 2008 is attributable to a 14.6% increase in the average price per job offset by an 8.9% decrease in the number of jobs performed. The average price per job for plumbing is attributable to an increase in the number of jobs requiring excavation work. Drain cleaning revenues for the first nine months of 2009 versus 2008 reflect a 7.4% decline in the number of jobs offset by a 0.9% increase in the average price per job. The decrease in other revenues is attributable primarily to lower sales of drain cleaning products and decreased revenue from independent contractor operations.

The consolidated gross margin was 29.7% for the first nine months of 2009 as compared with 28.9% for the first nine months of 2008. On a segment basis, VITAS' gross margin was 23.4% for the first nine months of 2009 and 21.8% for the first nine months of 2008. VITAS' gross margin increased as the result of the \$1.95 million BNAF adjustment related to fourth quarter of 2008, the net reversal of \$192,000 in the Medicare cap accrual and refinements to scheduled field labor. The Roto-Rooter segment's gross margin was 45.9% for the first nine months of 2009 and 45.6% for the first nine months of 2008.

Selling, general and administrative expenses ("SG&A") for the first nine months of 2009 were \$143.5 million, an increase of \$10.5 million (7.9%) versus the first nine months of 2008. The increase is due mainly to the impact of stock market gains which increase the liabilities of deferred compensation plans held in trust, an increase in stock-based compensation expense over the comparable period of 2008 as well as an increase in bad debt expense at VITAS. The expense associated with the increase in the liabilities of deferred compensation plans held in trust is essentially offset with gains recognized in other income/(expense). Also included in the first nine months of 2009 is a \$1.6 million increase in stock option expense.

Other operating expenses for the first nine months of 2009 of \$4.0 million are related to the expenses of a contested proxy solicitation.

Other income/(expense) increased from an expense of \$2.2 million for the first nine months of 2008 to income of \$4.8 million for the first nine months of 2009 due to the gain in the investments of deferred compensation plans held in trust.

Our effective income tax rate decreased from 40.3% for the first nine months of 2008 to 39.0% for the first nine months of 2009.

Recent Accounting Statements
In June 2009, the FASB issued additional authoritative guidance related to the consolidation of variable interest entities, which makes significant changes to the model for determining who should consolidate an entity and also addresses how often this assessment should be performed. The determination of who should consolidate a variable interest entity will be based on both quantitative and qualitative factors relating to control, as well as risks and benefits of ownership. This guidance is effective in 2010 for calendar-year companies and is to be adopted through a cumulative-effect adjustment. We are currently evaluating the impact of adoption of these provisions on our existing accounting methods.

3. APPLICATION OF SECTION 409A OF THE INTERNAL REVENUE CODE.

§3.1 In the event that any payment or benefit to the Participant or for the Participant's benefit paid or payable or distributed or distributable under this Policy ("Payment"), would be subject to the excise tax imposed by Section 409A of the Internal Revenue Code ("Code"), or any interest or penalties are incurred by the Participant with respect to such excise tax (collectively, "Excise Tax"), the Participant will be entitled to receive an additional payment ("Gross-Up Payment") in an amount such that after payment by the Participant of all taxes (including any income or payroll tax, interest or penalties imposed with respect to such taxes and the Excise Tax, other than interest and penalties imposed by reason of the Participant's failure to file timely a tax return or pay taxes shown due on the Participant's return, and including any Excise Tax imposed upon the Gross-Up Payment), the Participant retains an amount of the Gross-Up Payment equal to the Excise Tax imposed upon the Payments.

An initial determination as to whether and in what amount a Gross-Up Payment is required will be made at the Company's expense by an accounting firm of recognized national standing selected by the Company ("Accounting Firm"). The Accounting Firm will provide its determination ("Determination"), together with detailed supporting calculations and documentation, to the Company and the Participant within five days of the date of termination, if applicable, or such other time as requested by the Company or by the Participant (provided the Participant reasonably believes that any of the Payments may be subject to the Excise Tax). If the Accounting Firm determines that no Excise Tax is payable by the Participant with respect to a Payment or Payments, it will furnish the Participant an opinion reasonably acceptable to the Participant that no Excise Tax will have the right to dispute the Determination (the "Dispute"). The Gross-Up Payment, if any, as determined pursuant to this Section will be paid by the Company to the Participant within 5 days of the receipt of the Determination. The existence of the Dispute will not in any way affect the Participant's right to receive the Gross-Up Payment in accordance with the Determination. If there is no Dispute, the Determination will be binding upon the Company and the Participant, subject to the following paragraph.

As a result of uncertainty in the application of Section 409A of the Code, it is possible that a Gross-Up Payment will be paid which should not be paid ("Excess Payment") or that a Gross-Up Payment which should be paid will not be paid ("Underpayment"). An Underpayment will be deemed to have occurred (i) upon notice to the Participant from any governmental taxing authority that the Participant's tax liability (whether in respect of the Participant's current taxable year or in respect of any prior taxable year) may be increased by reason of the imposition of the Excise Tax on a Payment or Payments with respect to which the Company has failed to make a sufficient Gross-Up Payment, (ii) upon a determination by a court, (iii) by reason of a determination by the Company (which will include the position taken by the Company on its federal income tax return) or (iv) upon the resolution of the Dispute to the Participant's satisfaction. If an Underpayment occurs, the Participant will promptly, but in any event at least 5 days prior to the date on which the applicable government taxing authority has requested payment, pay to the Participant an additional Gross-Up Payment equal to the amount of the Underpayment plus any interest and penalties (other than interest and penalties imposed by reason of the Participant's failure to file timely a tax return or pay taxes shown due on the Participant's return) imposed on the Underpayment.

An Excess Payment will be deemed to have occurred upon a Final Determination (as hereinafter defined) that the Excise Tax will not be imposed upon a Payment or Payments (or portion thereof) with respect to which the Participant had previously received a Gross-Up Payment. A "Final Determination" will be deemed to have occurred when the Participant has received from the applicable government taxing authority a refund of taxes or other reduction in the Participant's tax liability by reason of the Excise Payment and upon either (x) the date a determination is made by, or an agreement is entered into with, the applicable governmental taxing authority which finally binds the Participant and such taxing authority, or if a claim is brought before a court, the date a final determination has been made by such court and either all appeals have been finally resolved or the time for all appeals has expired or (y) the statute of limitations with respect to the Participant's applicable tax return has expired. If an Excess Payment is determined to have been made, the Participant will pay to the Company (but not less than 10 days after the determination of such Excess Payment and written notice has been delivered to the Participant) the amount of the Excess Payment plus interest at an annual rate equal to the Applicable Federal Rate provided for in Section 1274(d) of the Code from the date the Gross-Up Payment was paid until the date of repayment. The Participant will use reasonable cooperative efforts at the request of the Company to assist in the determination of the amount of any Excess Payment or Underpayment made to the Participant pursuant to this Policy.

- 4. §3.2 All Payments are intended by Company and Employee to meet the requirements of Section 409A of the Code. LEGAL FEES AND EXPENSES, ARBITRATION. Each party shall pay their own legal fees incurred in connection with any enforcement of rights under this Policy. All disputes arising hereunder shall be subject to arbitration according to the rules of the American Arbitration Association. The Company and the Participant shall share equally in any third party costs of such arbitration.
- 5. GOVERNING LAW. This Policy, the rights and obligations hereunder, and any related claims shall be governed by and construed in accordance with the laws of the State of Ohio.
