- (a) Adjusted to exclude amortization of goodwill in 2001.
- 4. The Company had total comprehensive income of \$4,760,000 and \$3,534,000 for the three months ended March 31, 2002 and 2001, respectively. The difference between the Company's net income and comprehensive income relates to the cumulative unrealized appreciation/depreciation on its available-for-sale securities.

#### Page 7 of 13

- 5. During the first quarter of 2002, one purchase business combination was completed within the Roto-Rooter segment for a purchase price of \$1,229,000 in cash. The purchase price was allocated as follows: \$1,104,000 to goodwill, \$50,000 to identifiable intangible assets and \$75,000 to other assets. The business acquired provides drain cleaning and plumbing services under the Roto-Rooter name. The results of operations of this business in 2002 are not material.
- 6. Accruals relating to restructuring charges recorded in 2001 totaled approximately \$2.4 million at March 31, 2002 compared with \$3.5 million at December 31, 2001.
- 7. Effective July 1, 2001, Chemed adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets for all business combinations initiated after June 30, 2001. Effective January 1, 2002, Chemed adopted the provisions of SFAS No. 141 and SFAS No. 142 for all purchase business combinations initiated prior to July 1, 2001. The adoption of the provisions of SFAS No. 141 did not materially impact the Company's financial statements.

The adoption of SFAS No. 142 eliminates the amortization of goodwill as of the effective date of adoption. Amortization of goodwill for the first quarter of 2001 is \$1,255,000 (\$1,159,000)

net of income tax benefit), and was included in cost of services and cost of goods sold in the consolidated statement of income.

In addition, SFAS No. 142 stipulates that goodwill must be evaluated annually for impairment beginning in 2002 for each component of its operating segments. The first, or transition, evaluation must be done as of January 1, 2002 and must be completed by June 30, 2002. For the purpose of impairment testing, the Company has determined its reporting components are Service America, Patient Care, Roto-Rooter Services (plumbing and drain cleaning services), Roto-Rooter Franchising and Products (manufacturing, sale and franchising of Roto-Rooter products and services) and Roto-Rooter HVAC/non-Roto-Rooter brands (heating, ventilating and air-conditioning repair services and non-Roto-Rooter-branded drain cleaning and plumbing services). The Company's preliminary impairment tests indicate that none of the goodwill for any of its reporting components is impaired. The impairment evaluations will be completed during the second quarter of 2002.

- 8. On January 1, 2002, Chemed adopted the provisions of SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. The adoption of SFAS No. 144 did not materially impact the Company's financial statements.
- 9. In August 2001, the Financial Accounting Standards Board approved the issuance of SFAS No. 143, Accounting for Asset Retirement Obligations. This statement becomes effective for fiscal years beginning after June 15, 2002, and requires recognizing legal

#### Page 8 of 13

obligations associated with the retirement of tangible long-lived assets that result from the acquisition, construction, development or normal operation of a long-lived asset.

Since the Company has no material asset retirement obligations, the adoption of SFAS No. 143 in 2003 will not have a material impact on Chemed's financial statements.

10. On May 8, 2002, Chemed announced it entered into an agreement to sell its wholly owned Patient Care subsidiary to an investor group led by Schroder Ventures Life Sciences Group. Chemed expects to receive cash payments of approximately \$70 million and to recognize an aftertax loss of approximately \$1 to \$2 million on the sale.

Completion of the sale is contingent upon regulatory approvals, approval by the Chemed Board of Directors and the purchaser's receipt of financing commitments by June 30, 2002. The sale is expected to close before the end of 2002.

For the year ended December 31, 2001

Patient Care's reported net income was as follows (in thousands):

For the three months ended March 31, 2002 \$ 867

For the three months ended March 31, 2001 580

526

On an adjusted basis, excluding goodwill amortization for 2001 and excluding restructuring and similar expenses and other nonrecurring charges in the fourth quarter of 2001, Patient Care's net income was as follows (in thousands):

For the three months ended March 31, 2002 \$ 867
For the three months ended March 31, 2001 763
For the year ended December 31, 2001 3,325

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### Financial Condition

- -----

The decline in other current liabilities from \$49.7 million at December 31, 2001 to \$44.3 million at March 31, 2002 is due largely to the payment of liabilities for 2001 supplemental thrift and profit-sharing contributions and incentive compensation. The decline in accounts payable from \$11.7 million at December 31, 2001 to \$7.4 million at March 31, 2002 is primarily due to the timing of cash payments at the end of the periods. Income taxes increased from \$1.3 million at December 31, 2001 to \$6.7 million at March 31, 2002 primarily due to the refund of overpaid estimated federal taxes for 2001 in March 2002.

At March 31, 2002, Chemed had approximately \$18.5 million of unused lines of credit with various banks. Management believes its liquidity and sources of capital are satisfactory for the Company's needs in the foreseeable future.

#### (a) Adjusted to exclude amortization of goodwill in 2001.

Service revenues and sales for the Roto-Rooter segment for the first quarter of 2002 totaled \$65,279,000, a decline of 5% versus \$68,456,000 recorded in the first quarter of 2001. Revenues of the plumbing services business and the drain cleaning business declined 6% and 2%, respectively, for the first quarter of 2002, as compared with revenues for the first quarter of 2001. These revenues accounted for 40% and 45%, respectively, of Roto-Rooter's total service revenues and sales during the 2002 period. Excluding revenues of the HVAC and non-Roto-Rooter branded operations, some of which have been divested, revenues of this segment for the first quarter of 2002 declined 2% versus revenues for the first quarter of 2001. The aftertax margin of the Roto-Rooter segment for the first quarter of 2002 was 5.3% versus 7.1% on an adjusted basis (excluding goodwill amortization) during the first quarter of 2001. This decline is primarily attributable to a decline in the gross profit margin as the result of higher labor costs, as a percent of revenues, in the 2002 quarter.

## Page 10 of 13

Service revenues of the Patient Care segment increased 4% from \$34,941,000 in the first quarter of 2001 to \$36,182,000 in the first quarter of 2002. The aftertax margin of this segment for the first quarter of 2002 was 2.4% as compared with 2.2% on an adjusted basis (excluding goodwill amortization) in the first quarter of 2002.

Service revenues and sales of the Service America segment declined 13% from \$17,803,000 in the first quarter of 2001 to \$15,574,000 in the first quarter of 2002. This decline is attributable to a decline in contract renewals in 2002, lower retail sales and the divestment of the Tucson branch in the fourth quarter of 2001. The aftertax margin of this segment declined from 3.7% on an adjusted basis (excluding goodwill amortization) in 2001 to 2.1% in the first quarter of 2002. This margin decline is primarily due to the negative impact of operating leverage during a period when revenues declined and operating expenses were essentially level with the prior year.

Income from operations for the first quarter of 2002 was \$5,703,000 versus the \$7,517,000 recorded in the comparable period of 2001. On an adjusted basis, excluding goodwill amortization in 2001 (\$1,255,000), income from operations was \$8,772,000 in the first quarter of 2001. The \$3,069,000 decline in adjusted income from operations from the first quarter of 2001 to the first quarter of 2002 is primarily attributable to the decline in Roto-Rooter's operating profit.

Interest expense declined from \$1,486,000 during the first quarter of 2001 to \$773,000 during the first quarter of 2002, as a result of refinancing long-term debt at lower interest rates in December 2001.

Other income-net increased from \$1,759,000 during the first quarter of 2001 to \$2,329,000 during the first quarter of 2002, primarily as a result of net realized and unrealized gains on assets held in non-qualified benefit plan trusts in the first quarter of 2002 versus net losses recorded in the first quarter of 2001.

The Company's effective income tax rate during the first quarter of 2002 was 33.2% versus 38.6% during the first quarter of 2001. Excluding the effect of goodwill amortization in the 2001 quarter, the effective tax rate was 34.2%.

Income from continuing operations for the first quarter of 2002 was \$4,672,000 (\$.47 per share) as compared with \$4,614,000 (\$.47 per share) for the first quarter of 2001. Net income for the first quarter of 2002 was \$4,672,000 (\$.47 per share) as compared with \$4,510,000 (\$.46 per share) for the first quarter of 2001. Net income for the first quarter of 2001 included a loss of \$104,000 (\$.01 per share) from operations discontinued in the second quarter of 2001. Income from continuing operations and net income for the first quarter of 2001 included aftertax goodwill expense of \$1,159,000 (\$.12 per share and \$.11 per diluted share) versus no goodwill amortization in

2002. In addition, income from continuing operations and net income included aftertax capital gains on the sales of investments of \$775,000 (\$.07 per share) and \$703,000 (\$.07 per share)in the first quarter of 2002 and 2001, respectively.

On an adjusted basis, excluding goodwill amortization in 2001, income from continuing operations for the first quarter of 2002 was \$4,672,000 (\$.47 per diluted share) as compared with \$5,773,000 (\$.59 per share and \$.58 per diluted share) for the first quarter of 2001. Similarly, adjusted net income for the first quarter of 2002 was \$4,672,000 (\$.47 per share) as compared with \$5,669,000 (\$.58 per share and \$.57 per diluted share) for the first quarter of 2001.

Accounting for Asset Retirement Obligations

In August 2001, the Financial Accounting Standards Board approved the issuance of SFAS No. 143, Accounting for Asset Retirement Obligations. This statement becomes effective for fiscal years beginning after June 15, 2002, and requires all entities to recognize legal obligations associated with the retirement of tangible long-lived assets that result from the acquisition, construction or development and/or normal operation of a long-lived asset.

Since the Company has no material asset retirement obligations, the adoption of SFAS No. 143 in 2003 will not have a material impact on Chemed's financial statements.

Subsequent Event

The completion of the pending sale of the Company's Patient Care subsidiary is expected to generate net cash proceeds of approximately \$68 million. It is anticipated that such proceeds will be used for acquisitions, debt repayment and other corporate purposes.
