CHEMED CORPORATION AND SUBSIDIARY COMPANIES

Notes to Unaudited Financial Statements

1. Basis of Presentation

As used herein, the terms "We," "Company" and "Chemed" refer to Chemed Corporation or Chemed Corporation and its consolidated subsidiaries.

We have prepared the accompanying unaudited consolidated financial statements of Chemed in accordance with Rule 10-01 of SEC Regulation S-X. Consequently, we have omitted certain disclosures required under generally accepted accounting principles in the United States ("GAAP") for complete financial statements. The December 31, 2009 balance sheet data were derived from audited financial statements but do not include all disclosures required by GAAP. However, in our opinion, the financial statements presented herein contain all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our financial position, results of operations and cash flows. These financial statements are prepared on the same basis as and should be read in conjunction with the Consolidated Financial Statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2009.

2. Revenue Recognition

Both the VITAS segment and the Roto-Rooter segment recognize service revenues and sales when the earnings process has been completed. Generally, this occurs when services are provided or products are delivered. VITAS recognizes revenue at the estimated realizable amount due from third-party payers. Medicare payments are subject to certain limitations, as described below.

As of June 30, 2010, VITAS has approximately \$7.6 million in unbilled revenue included in accounts receivable (December 31, 2009 - \$9.9 million). The unbilled revenue at VITAS relates to hospice programs currently undergoing focused medical reviews ("FMR"). During FMR, surveyors working on behalf of the U.S. Federal government review certain patient files for compliance with Medicare regulations. During the time the patient file is under review, we are unable to bill for care provided to those patients. We make appropriate provisions to reduce our accounts receivable balance for potential denials of patient service revenue due to FMR activity.

We actively monitor each of our hospice programs, by provider number, as to their specific admission, discharge rate and median length of stay data in an attempt to determine whether they are likely to exceed the annual per-beneficiary Medicare cap ("Medicare cap"). Should we determine that revenues for a program are likely to exceed the Medicare cap based on projected trends, we attempt to institute corrective action to influence the patient mix or to increase patient admissions. However, should we project our corrective action will not prevent that program from exceeding its Medicare cap, we estimate the amount of revenue recognized during the period that will require repayment to the Federal government under the Medicare cap and record the amount as a reduction to patient revenue. The Medicare cap measurement period is from September 29 through September 28 of the following year for admissions and from November 1 through October 31 of the following year for revenue. During the three-month periods ended June 30, 2010 and 2009, we reversed \$35,000 and \$505,000, respectively of Medicare cap liability recorded during previous quarters due to improve admission trends. For the six month period ended June 30, 2010, we reversed \$1.8 million in Medicare cap liability recorded in the fourth quarter of 2009 for two programs' projected liability for the 2010 measurement period. For the six month period ended June 30, 2000 for the 2009 measurement period.

The U.S. government revises hospice reimbursement rates on an annual basis using the Hospice Wage Index (HWI) and the Consumer Price Index plus a phase out of the Budget Neutrality Adjustment Factor (BNAF). The HWI is geographically adjusted to reflect local differences in wages. The BNAF is a portion of inflation calculated in prior years that is being eliminated or phased out over a seven year period. In August 2008, the U.S. government announced a 25% reduction in the BNAF for its fiscal 2009 (October 2008 through September 2009) pursuant to a three year phase-out of the BNAF. The February 2009 American Recovery and Reinvestment Act mandated a one year delay in the BNAF phase-out. In August 2009, the Centers for Medicare and Medicaid Services (CMS) revised the phase-out schedule of the BNAF. CMS reduced the price increase in hospice reimbursement by 10% of the BNAF effective October 1, 2009. The remaining 90% of the BNAF will be phased out over the next six years by revising the October 1 reimbursement adjustment by 15% of the original BNAF inflation factor. Based upon this revised schedule, 100% of the BNAF will be eliminated on October 1, 2015. As a result, included in the six months ended June 30, 2009 results, is \$1.95 million of revenue for the retroactive price increase related to services provided by VITAS in the fourth quarter of 2008.

3. Segments

Service revenues and sales and after-tax earnings by business segment are as follows (in thousands):

	Three months ended June 30,			Six months ended June 30,				
		2010		2009		2010		2009
Service Revenues and Sales								
VITAS	\$	226,638	\$	211,303	\$	449,578	\$	419,720

Total	\$	314,995	\$	295,255	\$	623,808	\$	590,193
After-tax Earnings								
VITAS	\$	18,281	\$	17,122	\$	36,719	\$	34,292
Roto-Rooter		8,860		8,798	_	16,673	_	17,027
Total		27,141		25,920		53,392		51,319

Net income	\$	18,855	\$	17,250	\$	38,213	\$	36,589

We report corporate administrative expenses and unallocated investing and financing income and expense not directly related to either segment as "Corporate". Historically, we have recorded stock award amortization as a corporate expense. In the first quarter of 2010, our chief decision maker determined that this was an on-going expense and should be reported within the appropriate business segment. Accordingly, stock award amortization has been reclassified to the corresponding business segment for all periods presented.

4. Earnings per Share

Earnings per share are computed using the weighted average number of shares of capital stock outstanding. Earnings and diluted earnings per share for 2010 and 2009 are computed as follows (in thousands, except per share data):

For the Three Months Ended June 30,	Ν	let Income	Shares	Earnings per Share	
2010					
Earnings	\$	18,855	22,644	\$	0.83
Dilutive stock options		-	348		
Nonvested stock awards		-	88		
Diluted earnings	\$	18,855	23,080	\$	0.82
2009					
Earnings	\$	17,250	22,417	\$	0.77
Dilutive stock options		-	214		
Nonvested stock awards		-	41		
Diluted earnings	\$	17,250	22,672	\$	0.76

-7-

For the Six Months Ended June 30,	Net Inc	Net Income Shar			
2010					
Earnings	\$	38,213	22,608	\$	1.69
Dilutive stock options		-	319		
Nonvested stock awards		-	85		
Diluted earnings	\$	38,213	23,012	\$	1.66
2009					
Earnings	\$	36,589	22,406	\$	1.63
Dilutive stock options		-	216		
Nonvested stock awards		_	38		
Diluted earnings	<u>\$</u>	36,589	22,660	\$	1.61

For the three and six-month periods ended June 30, 2010, 976,000 and 991,000 stock options, respectively were excluded from the computation of diluted earnings per share as their exercise prices were greater than the average market price for most of the period. For the three and six-month periods ended June 30, 2009, 1.8 million stock options were excluded from the computation of diluted earnings per share.

Diluted earnings per share may be impacted in future periods as the result of the issuance of our 1.875% Senior Convertible Notes (the "Notes") and related purchased call options and sold warrants. Per FASB's authoritative guidance on the effect of contingently convertible instruments on diluted earnings per share and convertible bonds with an issuer option to settle for cash upon conversion, we will not include any shares related to the Notes in our calculation of diluted earnings per share until our average stock price for a quarter exceeds the current conversion price. We would then include in our diluted earnings per share calculation those shares issuable using the treasury stock method. The amount of shares issuable is based upon the amount by which the average stock price for the quarter exceeds the conversion price. The purchased call option does not impact the calculation of diluted earnings per share as it is always anti-dilutive. The sold warrants become dilutive when our average stock price for a quarter exceeds the strike price of the warrant.

The following table provides examples of how changes in our stock price impact the number of shares that would be included in our diluted earnings per share calculation. It also shows the impact on the number of shares issuable upon conversion of the Notes and settlement of the purchased call options and sold warrants:

Shares Underlying 1.875% Share Convertible Price Notes		Warrant Shares	Total Treasury Method Incremental Shares (a)	Shares Due to the Company under Notes Hedges	Incremental Shares Issued/ Received by the Company upon Conversion (b)
\$ 80.73	11,398	-	11,398	(12,194)	(796)
\$ 90.73	266,091	-	266,091	(284,657)	(18,566)
\$ 100.73	470,215	-	470,215	(503,022)	(32,807)
\$ 110.73	637,470	118,682	756,152	(681,947)	74,205
\$ 120.73	777,018	314,621	1,091,639	(831,231)	260,408
\$ 130.73	895,216	480,584	1,375,800	(957,676)	418,124

a) Represents the number of incremental shares that must be included in the calculation of fully diluted shares under U.S. GAAP.

b) Represents the number of incremental shares to be issued by the Company upon conversion of the 1.875% Convertible Notes, assuming concurrent settlement of the note hedges and warrants.

5. Long-Term Debt

We are in compliance with all debt covenants as of June 30, 2010. We have issued \$28.3 million in standby letters of credit as of June 30, 2010 for insurance purposes. Issued letters of credit reduce our available credit under the revolving credit agreement. As of June 30, 2010, we have approximately \$146.7 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility, excluding the expansion feature.

In May 2008, the FASB issued authoritative guidance for accounting for convertible debt instruments that may be settled in cash upon conversion including partial cash settlement. This guidance requires all convertible debentures classified as Instruments B or C to separately account for the debt and equity pieces of the instrument. Convertible debentures classified as Instruments B may be settled in either stock or cash equivalent to the conversion value and convertible debentures classified as Instruments C must settle the accreted value of the obligation in cash and may satisfy the excess conversion value in either cash or stock. At inception of the convertible instrument, cash flows related to the convertible instrument are to be discounted using a market rate of interest. We adopted the provisions of the guidance on January 1, 2009 and applied the guidance retrospectively. Upon adoption, the Notes had a discount of approximately \$55.1 million.

The following amounts are included in our consolidated balance sheet related to the Notes:

	June 30, 2010			31, 2009	
Principal amount of convertible debentures	\$	186,956	\$	186,956	
Unamortized debt discount	_	(31,348)	_	(34,829)	
Carrying amount of convertible debentures	\$	155,608	\$	152,127	
Additional paid in capital (net of tax)	\$	31,310	\$	31,310	

The following amounts comprise interest expense included in our consolidated income statement (in thousands):

	Three Months Ended June 30,				Six Months Ended June 30,			
	2010			2009		2010		2009
Cash interest expense	\$	1,083	\$	1,346	\$	2,153	\$	2,424

Amortization of debt costs		161		156		318		309
Total interest expense	\$	2,999	\$	3,142	\$	5,951	\$	5,986

The unamortized debt discount will be amortized using the effective interest method over the remaining life of the Notes. The effective rate on the Notes after adoption of the standard is approximately 6.875%.

6. Other Operating Expenses

For the three and six-month periods ended June 30, 2010, there were no other operating expenses recorded. For the three and six-month periods ended June 30, 2009, we recorded pretax expenses of \$3.4 million and \$4.0 million, respectively, related to the costs of a contested proxy solicitation.

7. Other Income – Net

Other income -- net comprises the following (in thousands):

	Three Months Ended June 30,			Six Months Ended June 30,			June 30,	
	2	010		2009		2010		2009

8. Stock-Based Compensation Plans

On May 17, 2010 the stockholders approved the adoption of the Company's 2010 Stock Incentive Plan. The Stock Incentive Plan authorizes the issuance or transfer of a maximum of 1,750,000 shares of capital stock pursuant to stock incentives granted to key employees of the Company. Stock incentives granted under the Stock Plan may be in the form of options to purchase capital stock or in the form of capital stock awards.

In April 2010, we met the stock price target of our Long-Term Incentive Plan. The stock price hurdle of \$54.00 was achieved during 30 trading days out of a 60 day trading day period. On April 16, 2010, the Compensation/Incentive Committee of the Board of Directors ("CIC") approved a stock grant of 27,900 shares and the related allocation to participants. The pretax cost of the stock grant was \$1.8 million.

On February 18, 2010, the CIC approved a grant of 47,896 shares of restricted stock to certain key employees. The restricted shares cliff vest four years from the date of issuance. The cumulative compensation expense related to the restricted stock award is \$2.5 million and will be recognized ratably over the four-year vesting period. We assumed no forfeitures in determining the cumulative compensation expense of the grant.

On February 18, 2010, the CIC approved a grant of 515,100 stock options to certain employees. The stock options vest ratably over three years from the date of issuance. The cumulative compensation expense related to the stock option grant is \$7.8 million and will be recognized over the three-year vesting period. We used the Black-Scholes option valuation method to determine the cumulative compensation expense of the grant.

9. Independent Contractor Operations

The Roto-Rooter segment sublicenses with sixty-one independent contractors to operate certain plumbing repair and drain cleaning businesses in lesserpopulated areas of the United States and Canada. We had notes receivable from our independent contractors as of June 30, 2010 totaling \$1.2 million (December 31, 2009 -\$1.3 million). In most cases these loans are fully or partially secured by equipment owned by the contractor. The interest rates on the loans range from zero to 8% per annum and the remaining terms of the loans range from two months to 5 years at June 30, 2010. During the three months ended June 30, 2010, we recorded revenues of \$5.6 million (2009 - \$5.4 million) and pretax profits of \$2.7 million (2009 - \$2.4 million) from our independent contractors. During the six months ended June 30, 2010, we recorded revenues of \$11.2 million (2009 - \$10.7 million) and pretax profits of \$5.1 million (2009 - \$4.7 million) from our independent contractors.

10. Pension and Retirement Plans

All of the Company's plans that provide retirement and similar benefits are defined contribution plans. Expenses for the Company's pension and profitsharing plans, excess benefit plans and other similar plans were \$2.2 million and \$5.6 million for the three months ended June 30, 2010 and 2009, respectively. Expenses for the Company's pension and profit-sharing plans, excess benefit plans and other similar plans were \$4.7 million and \$7.0 million for the six months ended June 30, 2010 and 2009, respectively.

11. Legal and Regulatory Matters

Litigation

On March 1, 2010 Anthony Morangelli and Frank Ercole filed a class action lawsuit in federal district court for the Eastern District of New York seeking unpaid minimum wages and overtime service technician compensation from Roto-Rooter and Chemed. They also seek payment of penalties, interest and plaintiffs' attorney fees. We contest these allegations. In June 2010, the Court conditionally certified a nationwide class of service technicians, excluding those who signed dispute resolution agreements in which they agreed to arbitrate claims arising out of their employment. There has been no final determination of the merits of collective treatment of the case. The lawsuit is in its early stage and we are unable to estimate our potential liability, if any, with respect to these allegations.

VITAS is party to a class action lawsuit filed in the Superior Court of California, Los Angeles County, in September 2006 by Bernadette Santos, Keith Knoche and Joyce White. This case alleges failure to pay overtime and failure to provide meal and rest periods to a purported class of California admissions nurses, chaplains and sales representatives. The case seeks payment of penalties, interest and Plaintiffs' attorney fees. VITAS contests these allegations. In December 2009, the trial court denied Plaintiffs' motion for class certification. The lawsuit is in its early stages and we are unable to estimate our potential liability, if any, with respect to these allegations.

Regardless of outcome, defense of litigation adversely affects us through defense costs, diversion of our time and related publicity. In the normal course of business, we are a party to various claims and legal proceedings. We record a reserve for these matters when an adverse outcome is probable and the amount of the potential liability is reasonably estimable.

Regulatory Matters

In April 2005, the Office of Inspector General ("OIG") for the Department of Health and Human Services served VITAS with civil subpoenas relating to VITAS' alleged failure to appropriately bill Medicare and Medicaid for hospice services. As part of this investigation, the OIG selected medical records for 320 past and current patients from VITAS' three largest programs for review. It also sought policies and procedures dating back to 1998 covering admissions, certifications, recertifications and discharges. During the third quarter of 2005 and again in May 2006, the OIG requested additional information from us. The Court dismissed a related qui tam complaint filed in U.S. District Court for the Southern District of Florida with prejudice in July 2007. The plaintiffs appealed this dismissal, which the Court of Appeals affirmed. The government continues to investigate the complaint's allegations. In March 2009, we received a letter from the government reiterating the basis of their investigation.

In May 2009, VITAS received an administrative subpoena from the U.S. Department of Justice requesting VITAS deliver to the OIG documents, patient records, and policy and procedure manuals for headquarters and its Texas programs concerning hospice services provided for the period January 1, 2003 to the date of the letter. In August 2009, the OIG selected medical records for 59 past and current patients from a Texas program for review. In February 2010, VITAS received a companion civil investigative demand from the state of Texas Attorney General's Office, seeking related documents. Based on the early stage of the investigation and the limited information we have at this time, we cannot predict the outcome of this investigation. We believe that we are in material compliance with Medicare and Medicaid rules and regulations applicable to hospice providers.

The costs to comply with either of these investigations were not material for any period presented. We are unable to predict the outcome of these matters or the impact, if any, that the investigation may have on our business, results of operations, liquidity or capital resources. Regardless of outcome, responding to the subpoenas can adversely affect us through defense costs, diversion of our time and related publicity.

12. Related Party Agreement

VITAS has pharmacy services agreements ("Agreements") with Omnicare, Inc. and its subsidiaries ("OCR") whereby OCR provides specified pharmacy services for VITAS and its hospice patients in geographical areas served by both VITAS and OCR. The Agreements renew automatically for one-year terms. Either party may cancel the Agreements at the end of any term by giving 90 days prior written notice. VITAS made purchases from OCR of \$8.9 million and \$8.2 million for the three months ended June 30, 2010 and 2009, respectively. VITAS made purchases from OCR of \$17.5 million and \$16.1 million for the six months ended June 30, 2010 and 2009, respectively.

-11-

Mr. Joel F. Gemunder, President and Chief Executive Officer of OCR and Ms. Andrea Lindell are directors of both OCR and the Company. Mr. Kevin J. McNamara, President, Chief Executive Officer and a director of the Company, is a director emeritus of OCR. We believe that the terms of the Agreements are no less favorable to VITAS than we could negotiate with an unrelated party.

13. Cash Overdrafts Payable

Included in accounts payable at June 30, 2010 is cash overdrafts payable of \$10.4 million (December 31, 2009 - \$11.7 million).

14. Financial Instruments

We adopted the provisions of the FASB's authoritative guidance on fair value measurements. This statement defines a hierarchy which prioritizes the inputs in fair value measurements. Level 1 measurements are measurements using quoted prices in active markets for identical assets or liabilities. Level 2 measurements use significant other observable inputs. Level 3 measurements are measurements using significant unobservable inputs which require a company to develop its own assumptions. In recording the fair value of assets and liabilities, companies must use the most reliable measurement available.

The following shows the carrying value, fair value and the hierarchy for our financial instruments as of June 30, 2010 (in thousands):

			Fair Value Measu	re
		Quoted Prices in Active Markets for Identical Assets (Level	Significant Other Observable	Significant Unobservable
	Carrying Value	1)	Inputs (Level 2)	Inputs (Level 3)
Mutual fund investments of deferred compensation plans held in trust Long-term debt	\$ 26,282 155,608	\$ 26,282 172,701	\$	\$ -

For cash and cash equivalents, accounts receivable and accounts payable, the carrying amount is a reasonable estimate of fair value because of the liquidity and short-term nature of these instruments.

15. Capital Stock Transactions

On April 26, 2007, our Board of Directors authorized a \$150 million stock repurchase program. On May 19, 2008, our Board of Directors authorized an additional \$56 million to the April 2007 stock repurchase program. For the quarter ended June 30, 2010, we repurchased 114,900 shares at a weighted average cost per share of \$54.99 under the April 2007 program. For the six months ended June 30, 2010, we repurchased 146,275 shares at a weighted average cost per share of \$53.32. For the quarter and six months ended June 30, 2009 there was no stock repurchased.

16. Guarantor Subsidiaries

Our 1.875% Notes are fully and unconditionally guaranteed on an unsecured, jointly and severally liable basis by certain of our 100% owned subsidiaries. The following unaudited, condensed, consolidating financial data presents the composition of the parent company (Chemed), the guarantor subsidiaries and the non-guarantor subsidiaries as of June 30, 2010 and December 31, 2009 for the balance sheet, the three and six months ended June 30, 2010 and June 30, 2009 for the statement of cash flows (dollars in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

We operate through our two wholly owned subsidiaries, VITAS Healthcare Corporation and Roto-Rooter Group, Inc. VITAS focuses on hospice care that helps make terminally ill patients' final days as comfortable as possible. Through its teams of doctors, nurses, home health aides, social workers, clergy and volunteers, VITAS provides direct medical services to patients, as well as spiritual and emotional counseling to both patients and their families. Roto-Rooter's services are focused on providing plumbing and drain cleaning services to both residential and commercial customers. Through its network of company-owned branches, independent contractors and franchisees, Roto-Rooter offers plumbing and drain cleaning service to over 90% of the U.S. population.

The following is a summary of the key operating results for the three and six months ended June 30, 2010 and 2009 (in thousands except per share amounts):

	 Three Months Ended June 30,				Six Mont Jun	ded	
	2010	_	2009		2010		2009
Service revenues and sales	\$ 314,995	\$	295,255	\$	623,808	\$	590,193
Net income	\$ 18,855	\$	17,250	\$	38,213	\$	36,589
Diluted EPS	\$ 0.82	\$	0.76	\$	1.66	\$	1.61

Adjusted EBITDA as a % of revenue	14.3%	ó	14.8%	ó	14.1%	, D	14.6%

*See pages 27 - 28 for reconciliation to GAAP measures.

For the three months ended June 30, 2010, the increase in consolidated service revenues and sales was driven by a 7.3% increase at VITAS while Roto-Rooter revenues increased by 5.2%. The increase in service revenues at VITAS was a result of increased average daily census ("ADC") of 5.6%, driven by an increase in admissions of 4.2%, combined with Medicare price increases of approximately 1.3%. Roto-Rooter was driven by an approximate 6.0% price and mix shift increase offset by a 0.7% decrease in job count. Consolidated net income increased 9.3% mainly as a result of the increase in revenues and lower corporate expenses due to the 2009 costs associated with the contested proxy solicitation. Diluted EPS increased as the result of increased earnings. Adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA") increased 2.8% from the second quarter of 2009 to the second quarter of 2010.

For the six months ended June 30, 2010, the increase in consolidated service revenues and sales was driven by a 7.1% increase at VITAS and a 2.2% increase at Roto-Rooter. The increase in service revenues at VITAS was a result of increased average daily census ("ADC") of 5.3%, driven by an increase in admissions of 4.5%, combined with Medicare price increases of approximately 1.3%. Roto-Rooter was driven by an approximate 6.3% price and mix shift increase offset by a 4.0% decrease in job count. Consolidated net income increased 4.4% over prior year. Diluted EPS increased as a result of increased earnings. Adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA") increased 2.4% for the six month period ended June 30, 2010 compared to the same period in 2009.

EBITDA and Adjusted EBITDA are not measures derived in accordance with GAAP and exclude components that are important to understanding our financial performance. We use Adjusted EBITDA as a measure of earnings for our LTIP awards. We provide EBITDA and Adjusted EBITDA to help readers evaluate our operating results, compare our operating performance with that of similar companies that have different capital structures and help evaluate our ability to meet future debt service, capital expenditure and working capital requirements. Our EBITDA and Adjusted EBITDA should not be considered in isolation or as a substitute for comparable measures presented in accordance with GAAP. A reconciliation of our net income to our Adjusted EBITDA is presented on pages 27 - 28.

VITAS expects to achieve full-year 2010 revenue growth, prior to Medicare cap, of 6.0% to 7.0%. Admissions are estimated to increase 3.0% to 4.0%. Adjusted EBITDA margin prior to Medicare cap is estimated to be 15.0% to 15.5%. Roto-Rooter expects full-year 2010 revenue growth of 4.0% to 4.5%. The revenue estimate is a result of increased pricing of 3.0%, a favorable mix shift to higher revenue jobs, offset by a job count decline estimated at 2.0% to 4.0%. Adjusted EBITDA margin for 2010 is estimated to be in the range of 17.5% to 18.0%. We anticipate that our operating income and cash flows will be sufficient to operate our businesses and meet any commitments for the foreseeable future.

<u>Financial Condition</u> <u>Liquidity and Capital Resources</u>

Material changes in the balance sheet accounts from December 31, 2009 to June 30, 2010 include the following:

- A \$48.3 million increase in accounts receivable primarily at VITAS, related to timing of Medicare payments and refund of overpayments from prior years.
- A \$4.7 million increase in income taxes payable, related to timing of payments.

Net cash provided by operating activities decreased \$22.8 million due primarily to the increase in accounts receivable, partially offset by a decrease in accounts payable and other current liabilities. Management continually evaluates cash utilization alternatives, including share repurchase, debt repurchase, acquisitions and increased dividends to determine the most beneficial use of available capital resources.

We have issued \$28.3 million in standby letters of credit as of June 30, 2010, for insurance purposes. Issued letters of credit reduce our available credit under the revolving credit agreement. As of June 30, 2010, we have approximately \$146.7 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility, excluding the expansion feature. Management believes its liquidity and sources of capital are satisfactory for the Company's needs in the foreseeable future.

Commitments and Contingencies

Collectively, the terms of our credit agreements require us to meet various financial covenants, to be tested quarterly. In connection therewith, we are in compliance with all financial and other debt covenants as of June 30, 2010 and anticipate remaining in compliance throughout 2010.

On March 1, 2010 Anthony Morangelli and Frank Ercole filed a class action lawsuit in federal district court for the Eastern District of New York seeking unpaid minimum wages and overtime service technician compensation from Roto-Rooter and Chemed. They also seek payment of penalties, interest and Plaintiffs' attorney fees. We contest these allegations. In June 2010, the Court conditionally certified a nationwide class of service technicians, excluding those who signed dispute resolution agreements in which they agreed to arbitrate claims arising out of their employment. There has been no final determination of the merits of collective treatment of the case. The lawsuit is in its early stage and we are unable to estimate our potential liability, if any with respect to these allegations.

VITAS is party to a class action lawsuit filed in the Superior Court of California, Los Angeles County, in September 2006 by Bernadette Santos, Keith Knoche and Joyce White. This case alleges failure to pay overtime and failure to provide meal and rest periods to a purported class of California admissions nurses, chaplains and sales representatives. The case seeks payment of penalties, interest and Plaintiffs' attorney fees. VITAS contests these allegations. In December 2009, the trial court denied Plantiffs' motion for class certification. The lawsuit is in its early stages and we are unable to estimate our potential liability, if any, with respect to these allegations.

In April 2005, the Office of Inspector General ("OIG") for the Department of Health and Human Services served VITAS with civil subpoenas relating to VITAS' alleged failure to appropriately bill Medicare and Medicaid for hospice services. As part of this investigation, the OIG selected medical records for 320 past and current patients from VITAS' three largest programs for review. It also sought policies and procedures dating back to 1998 covering admissions, certifications, recertifications and discharges. During the third quarter of 2005 and again in May 2006, the OIG requested additional information from us. The Court dismissed a related qui tam complaint filed in U.S. District Court for the Southern District of Florida with prejudice in July 2007. The plaintiffs appealed this dismissal, which the Court of Appeals affirmed. The government continues to investigate the complaint's allegations. In March 2009, we received a letter from the government reiterating the basis of their investigation.

In May 2009, VITAS received an administrative subpoena from the U.S. Department of Justice requesting VITAS deliver to the OIG documents, patient records, and policy and procedure manuals for headquarters and its Texas programs concerning hospice services provided for the period January 1, 2003 to the date of the letter. In August 2009, the OIG selected medical records for 59 past and current patients from a Texas program for review. In February 2010, VITAS received a companion civil investigative demand from the state of Texas Attorney General's office, seeking related documents. Based on the early stage of the investigation and the limited information we have at this time, we cannot predict the outcome of this investigation. We believe that we are in material compliance with Medicare and Medicaid rules and regulations applicable to hospice providers.

-17-

We are unable to predict the outcome of these matters or the impact, if any, that the investigation may have on our business, results of operations, liquidity or capital resources. Regardless of outcome, responding to the subpoenas can adversely affect us through defense costs, diversion of our time and related publicity.

Results of Operations

Three months ended June 30, 2010 versus 2009 - Consolidated Results

Our service revenues and sales for the second quarter of 2010 increased 6.7% versus services and sales revenues for the second quarter of 2009. Of this increase, \$15.3 million was attributable to VITAS and \$4.4 million was attributable to Roto-Rooter. The following chart shows the components of those changes (dollar amounts in thousands):

	Increase/(Decrease)			
	Amount	Percent		
VITAS				
Routine homecare	11,506	7.6%		
Continuous care	1,977	5.6%		
General inpatient	2,322	9.8%		
Medicare cap	(470)	-93.1%		
Roto-Rooter				
Plumbing	4,039	10.6%		
Drain cleaning	(245)	-0.7%		
Other	611	5.1%		
Total	\$ 19,740	6.7%		

The increase in VITAS' revenues for the second quarter of 2010 versus the second quarter of 2009 was a result of increased ADC of 5.6% driven by an increase in admissions of 4.2%, combined with Medicare reimbursement rate increases of approximately 1.3%. The ADC increase was driven by a 5.5% increase in routine homecare, an increase of 9.9% in general inpatient and a 3.0% increase in continuous care. In excess of 90% of VITAS' service revenues for the period were from Medicare and Medicaid.

The increase in plumbing revenues for the second quarter of 2010 versus 2009 is attributable to a 6.4% increase in the average price per job and a 4.5% increase in the number of jobs performed. The increase in the plumbing price per job was a combination of increased pricing and favorable job mix shift to more expensive jobs such as excavation. Our excavation job count increased by 18.2% compared to 2009. Drain cleaning revenues for the second quarter of 2010 versus 2009 reflect a 3.2% decline in the number of jobs, while the average price per job increased 2.5%. The increase in other revenues is attributable to an increase in our independent contractor operations and an increase in product sales.

The consolidated gross margin was 29.0% in the second quarter of 2010 as compared with 29.8% in the second quarter of 2009. On a segment basis, VITAS' gross margin was 22.7% in the second quarter of 2010 and 23.3% in the second quarter of 2009. The decrease in VITAS' gross margin is attributable to higher labor costs for admissions and Medicare compliance personnel and the opening of inpatient units which carry significant one time start-up costs as capacity begins to ramp-up. The Roto-Rooter segment's gross margin was 45.2% for the second quarter of 2010 as compared with 46.2% for the second quarter of 2009. The decrease in Roto-Rooter's gross margin was attributable to continued mix shift to excavation which has higher revenue per job but a slightly lower gross margin percentage per job as well as an unfavorable adjustment to casualty insurance.

In excess of 90% of VITAS' service revenues for the period were from Medicare and Medicaid.

The increase in plumbing revenues for the first six months of 2010 versus 2009 is attributable to a 7.8% increase in the average price per job and a 0.5% decrease in the number of jobs performed. The increase in the plumbing price per job was a combination of increased pricing and favorable job mix shift to more expensive jobs such as excavation. Our excavation job count increased by 15.5% compared to 2009. Drain cleaning revenues for the first six months of 2010 versus 2009 reflect a 5.7% decline in the number of jobs, while the average price per job increased 2.7%. Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995 Regarding Forward-Looking Information

Certain statements contained in this report are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The words "believe", "expect", "hope", "anticipate", "plan" and similar expressions identify forward-looking statements, which speak only as of the date the statement was made. These forward-looking statements are based on current expectations and assumptions and involve various known and unknown risks, uncertainties, contingencies and other factors, which could cause Chemed's actual results to differ from those expressed in such forward-looking statements. Variances in any or all of the risks, uncertainties, contingencies, and other factors from our assumptions could cause actual results to differ materially from these forward-looking statements and trends. In addition, our ability to deal with the unknown outcomes of these events, many of which are beyond our control, may affect the reliability of projections and other financial matters. Investors are cautioned that such forward-looking statements are subject to inherent risk and there are no assurances that the matters contained in such statements will be achieved. Chemed does not undertake and specifically disclaims any obligation to publicly update or revise any forward-looking statements, whether as a result of a new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our primary market risk exposure relates to interest rate risk exposure through variable interest rate borrowings. At June 30, 2010, we had no variable rate debt outstanding. At June 30, 2010, the fair value of the Notes approximates \$172.7 million which have a face value of \$187.0 million.

Item 4. Controls and Procedures

We carried out an evaluation, under the supervision of our President and Chief Executive Officer and with the participation of the Executive Vice President and Chief Financial Officer and the Vice President and Controller, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the President and Chief Executive Officer, Executive Vice President and Chief Financial Officer and Vice President and Controller have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. There has been no change in our internal control over financial reporting that occurred during the quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

CERTIFICATION PURSUANT TO RULES 13a-14(a)/15d-14(a) OF THE EXCHANGE ACT OF 1934

I, Arthur V. Tucker, Jr., certify that:

1. I have reviewed this quarterly report on Form 10-Q of Chemed Corporation ("registrant");

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f) and 15d-15(f)) for the registrant and have:

a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles,

c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors or persons performing the equivalent function:

a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
